

Video of the Week – How to make your sky blue in the food and beverage industry

The policy for food hygiene is clearly defined by the standards of the US and European regulators. At igus, our 'food grade' products are produced in blue, and are therefore easy to identify.

In this week's video, we see the food-safe, physiologically harmless, (EU) No 10/2011 regulated and FDA-certified, igus plastic iglidur A160 parts. This enhanced portfolio of wear-resistant products from igus ensures the smooth running precise and quick adjustment of machines in the food and beverage industry.

From specific bearing products to spare parts, the blue-sky range is particularly characterised by its long service life. Impervious to chemicals and other cleaning agents, all iglidur A160 parts have the usual advantages of iglidur materials being lubrication and maintenance free.

About igus:

Based in Northampton in the UK and with global headquarters in Cologne, Germany, igus is a leading international manufacturer of energy chain systems and polymer plain bearings. The family-run company is represented in 35 countries and employs 3.800 people around the world. In 2017, igus generated a turnover of 690 million euros with motion plastics, plastic components for moving applications.

With plastic bearing experience since 1964, cable carrier experience since 1971 and continuous-flex cable since 1989, igus provides the right solution based on 100,000 products available from stock with between 1,500 and 2,500 new product introductions each year. igus operates the largest test laboratories and factories in its sector to offer customers quick turnaround times on innovative products and solutions tailored to their needs.

The terms igus, chainflex, CFRIP, conprotect, CTD, drylin, dry-tech, dryspin, easy chain, e-chain, e-chain systems, e-ketten, e-kettensysteme, e-skin, flizz, ibow, iglide, iglidur, igubal, manus, motion plastics, pikchain, readychain, readycable, speedigus, triflex, plastics for longer life, robolink and xiros are protected by trademark laws in the Federal Republic of Germany and internationally, where applicable.

All other registered trademarks and trademarks are the property of their respective owners.
