

Video of the Week – How igus could be with you sooner than you think

We know the chances of getting out to visit shows and exhibitions are becoming few and far between. With our mobile display, we take to the road and come to you; it is an opportunity for you to get to know our products and find out about our latest innovations without leaving the premises.

During your break, you can pop in to see us, have a snack and speak to our product engineers and industry specialists face to face. Products range from low-cost automation systems to self-lubricating and wear-resistant plastic bearings and energy chains.

Here is a video for you to see how our mobile display works: www.igus.co.uk/igusontheroad

If you and your engineering team would like to arrange a visit, please contact Chris Foot at: cfoot@igus.co.uk or call igus directly on: 01604 677240

About igus:

Based in Northampton in the UK and with global headquarters in Cologne, Germany, igus is a leading international manufacturer of energy chain systems and polymer plain bearings. The family-run company is represented in 35 countries and employs 3.800 people around the world. In 2017, igus generated a turnover of 690 million euros with motion plastics, plastic components for moving applications.

With plastic bearing experience since 1964, cable carrier experience since 1971 and continuous-flex cable since 1989, igus provides the right solution based on 100,000 products available from stock with between 1,500 and 2,500 new product introductions each year. igus operates the largest test laboratories and factories in its sector to offer customers quick turnaround times on innovative products and solutions tailored to their needs.

The terms igus, chainflex, CFRIP, conprotect, CTD, drylin, dry-tech, dryspin, easy chain, e-chain, e-chain systems, e-ketten, e-kettensysteme, e-skin, flizz, iglide, iglidur, igubal, manus, motion plastics, pikchain, readychain, readycable, speedigus, triflex, plastics for longer life, robolink and xiros are protected by trademark laws in the Federal Republic of Germany and internationally, where applicable.

All other registered trademarks and trademarks are the property of their respective owners.
